For the purpose of receiving a report from the Executive Committee and of taking action thereon.

THE EXECUTIVE COMMITTEE.
BOLTON SMITH, Chairman.

DOCTORS USE CALOTABS FOR COLDS AND FLU

Influenza and Grippe, Like Ordinary Colds, Require Calotabs, the Purified and Refined Calomel Tablets That Are Nauseless, Safe and Sure.

Physicians and druggists claim that the great epidemic of influenza has conclusively demonstrated that the quick relief for a cold and the best preventive of influenza and pneumonia is to keep the liver active so that the digestive organs may be in perfect condition. For this purpose Calotabs, the new nauseless tablets that are free from the sickening and weakening effects, is the most thorough and dependable, as well as the most agreeable laxative.

Calotabs have the special advantage of not making the patient sick and weak, as they do not upset the digestion and appetite. One Calotab at bedtime with a swallow of water—that's all. No salts, no nausea, no slightest interference with your eating, pleasure, or work. Next morning your cold has vanished, your liver is active, your system is purified, and you are feeling fine with a hearty appetite for breakfast.

For your protection, Calotabs are sold only in original sealed packages, price thirty-five cents. Sold by all druggists and your money back if you are not delighted with them.

WHOOPING COUGH IN VIOLENT FORM

Birmingham Mother Says Lung-Vita Relieved Her Children.

BETTER RIGHT AWAY
In Short Time After Starting With the Medicine Children Were Well.

Lung-Vita Now Called L-V

"About one year ago my three children had whooping cough in a most violent form, and someone told me to use Lung-Vita, which I did," says Mrs. L. M. McTear, 319 S. 4th street, Birmingham, Ala.

"In ten days or less they stopped coughing and in another week they were well. Immediately after commencing with Lung-Vita I noticed an improvement and continued to give the medicine until they were well. I regard Lung-Vita as an excellent medicine and am pleased to endorse it."

The medicine Mrs. McTear tells of is now called L-V. The change is in name only, however, for the medicine is exactly the same. Until the present supply of your druggist is gone he will furnish you our medicine under the name of Lung-Vita, but after that under the name of L-V.

For WHOOPING COUGH
CLEAR YOUR SYSTEM

Don't go around with a "scowl" or "sour" look. Keep yourself full of "PEP" and in condition. Feel like a new person from early morning to late at night. Lehman's 475 Dyspepsia and Indigestion Remedy will do all this for you. It tones the entire system. As mild and harmless. Easy to take and a sure purifier for the whole system.

Foley's Honey and Tar Compound
LOOSENS THE PHLEGM AND MUCUS, clears the air passages, coats inflamed and irritated membranes with a healing and soothing demulcent, eases hoarseness, stops tickling in the throat and makes refreshing, restful sleep possible.

Banished La Grippe Coughs
Lewis Newman, 506 1/2 North 3rd St., Charleston, W. Va. "I am glad to tell you that Foley's Honey and Tar is the best remedy for lung trouble I have ever used. I have been down sick ever since January and nothing would do me any good. I was full of cold. I had the grip all winter until I got two 50c bottles of Foley's Honey and Tar. I used 1 1/2 bottles. I am glad to say I can't feel any more cold in my chest."

Foley's Honey and Tar Compound gives prompt relief from coughs, colds, hoarseness, tickling throat, whooping cough, spasmodic cough and bronchial asthma.

Sold Everywhere.

Tuesday, Jan. 20—Brazil (state of Pernambuco), Jugo-Slavia.

Thursday, Jan. 22—New Zealand (provincial anniversary in Auckland), South Australia (Founders' day).

Saturday, Jan. 24—A holiday (in memory of all those who fought and died to establish Portugal's independence). Portugal, East Africa, Portuguese West Africa.

PUGH SAYS HIS RHEUMATISM AND OTHER TROUBLES DISAPPEARED AFTER TAKING TANLAC. IS ABLE NOW TO ATTEND TO BUSINESS.

"I gained twenty-four pounds by taking Tanlac and my rheumatism and other troubles are now gone," said W. B. Pugh, a well-known grocer at 301 Hermitage avenue, Nashville, Tenn.

"For two years," he continued, "I suffered from rheumatism and stomach trouble that weakened and crippled me so I could not attend to my business properly. After eating anything food would form in my stomach and press on my heart so I could hardly breathe. My appetite was poor, I would have another spell and would get so nervous I could hardly sleep. My legs and knees hurt so I could hardly get about at all."

"Soon after I started taking Tanlac my appetite picked up and my nerves became quiet. Now I can eat anything I want and the smothering spells and fluttering of the heart have disappeared. Besides gaining weight the rheumatism has entirely left my legs and knees. I sleep like a log and can attend to business without any trouble."

Tanlac is sold in Memphis exclusively by Weiss Pharmacy and Wernicke Drug Co.

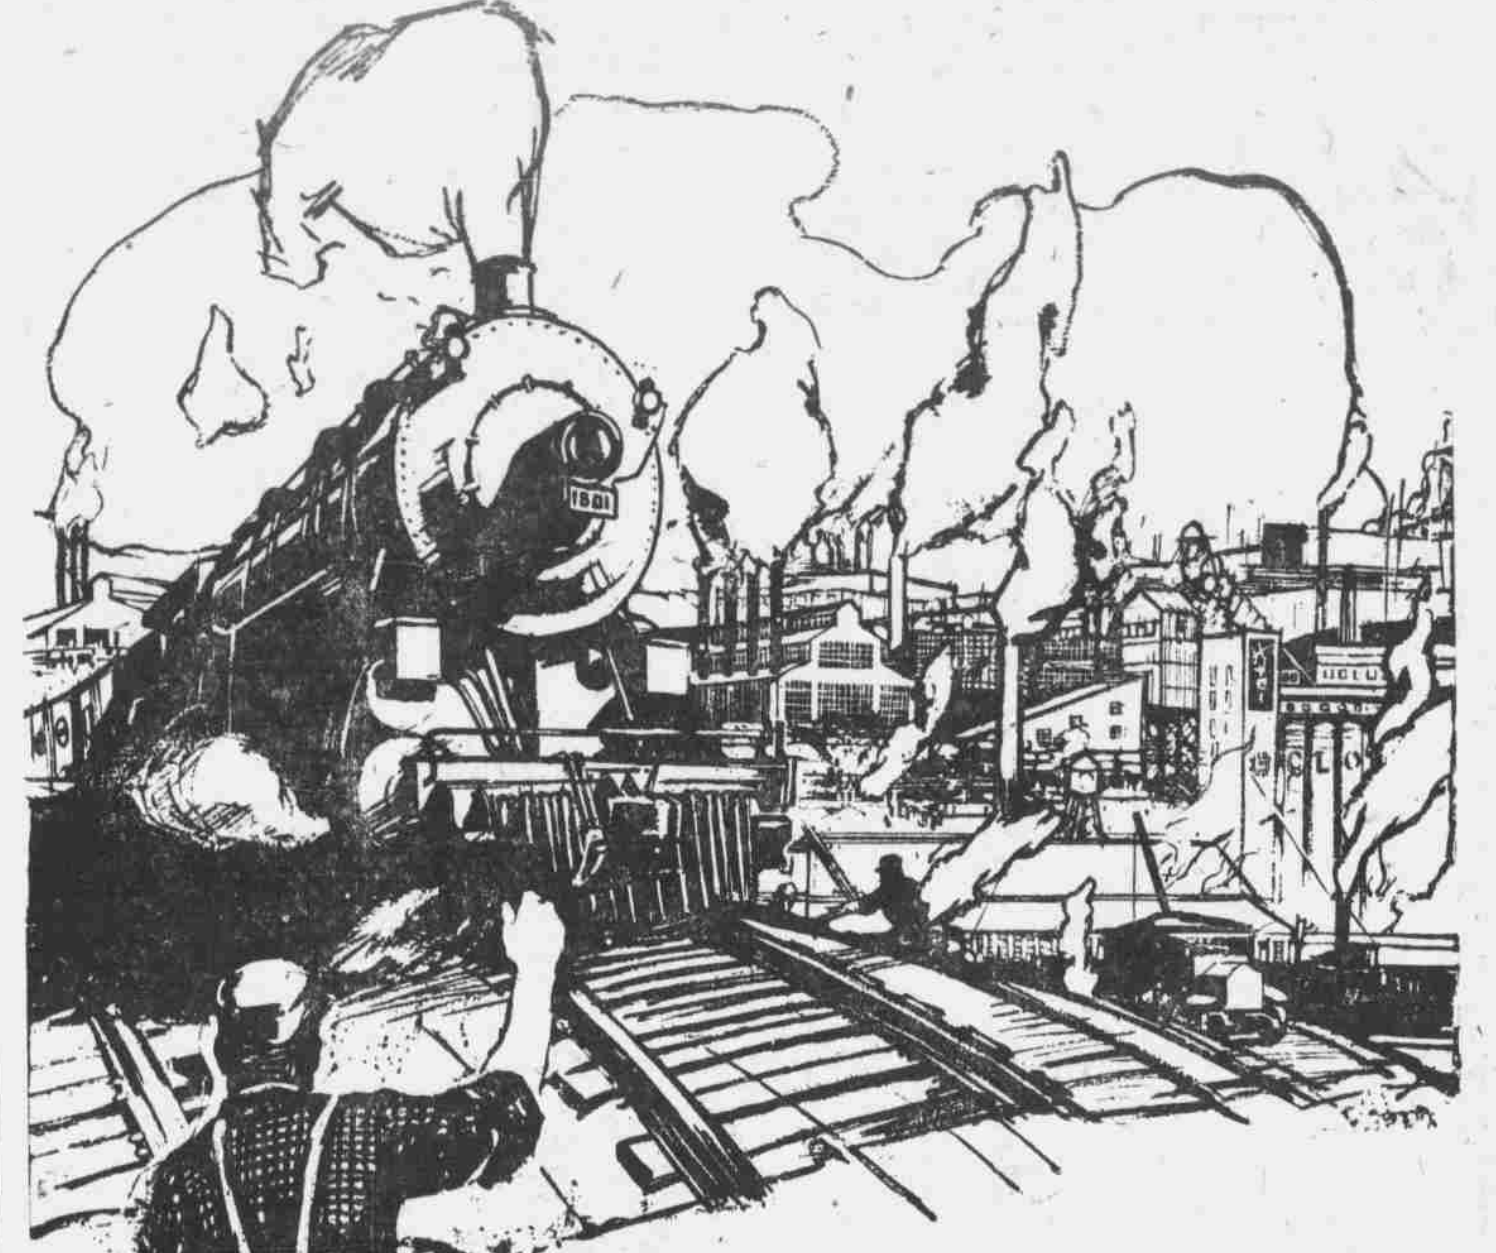

PUBLIC WORKS ARE TO BE CATALOGUED

By This Means Bureau Believes It Is Possible to Get Work for All.

ALBANY, N. Y., Dec. 22.—To authorize and require the state industrial commission through the bureau of employment to obtain during the first three months of each year from the several state departments and localities current information regarding all public works projected and under construction and to publish this information annually in April in summary form is one of the recommendations recently submitted to the governor of New York state by the state reconstruction commission, says the bureau of statistics in its last monthly bulletin. In its report the commission dealt generally with the problem of employment in the state and felt that one of its most practical duties would be to emphasize the desirability of planning public improvements upon a long-term basis and prompt action in pushing forward the work outlined, with special vigor whenever industrial depression threatens.

It is also recommended that the industrial commissioner through the bureau of employment, develop a program with a view to the organization of a labor market to bring about extensive dovetailing of winter and summer trades, also with a view to concentrating attention upon the need of industrial training, and in the case of seasonal employment or depression, insure employees to absorb hours rather than discharge employees.

It looks toward the development of the state employment service into an ultimate monopoly and the convening in April or May of an annual conference of all public works authorities throughout the state to discuss engineering, financial, employment and other common problems.

Work more—
Produce more—
Save more—

But we can't continue increasing our production unless we continue increasing our railroad facilities.

The farms, mines and factories cannot increase their output beyond the capacity of the railroads to haul their products.

Railroads are now near the peak of their carrying capacity.

Without railroad expansion—more engines, more cars, more tracks, more terminals—there can be little increase in production.

But this country of ours is going to keep right on growing—and the railroads must grow with it.

To command in the investment markets the flow of new capital to expand railroad facilities—and so increase production—there must be public confidence in the future earning power of railroads.

The nation's business can grow only as fast as the railroads grow.

A vast amount of work now remains to be done which the intervention of war has necessarily delayed and accumulated, and the result is that ***** very large capital expenditures ought to be made to make up for the interruptions inevitably due to the war and to prepare the railroads to serve adequately the increased traffic throughout the country.

WALKER D. HINES,
Director General of Railroads

This advertisement is published by the Association of Railway Executives

Those desiring information concerning the railroad situation may obtain literature by writing to The Association of Railway Executives, 61 Broadway, New York

RED CROSS FINDS LOST LIBERTY BOND OWNERS

NEW ORLEANS, Dec. 22.—Ninety-one "lost" owners of Liberty bonds, said for which the purchase were in Uncle Sam's military service, have been reported to Mrs. C. M. Eustis, secretary of the department of civilian relief of the Gulf division of the American Red Cross.

It is up to Mrs. Eustis and her assistants to find the owners of the unclaimed bonds, and in this respect since the work was started she has been successful in locating 40 of the "missing" owners. This is a record of 44 per cent, and it is one of the best.

She has been forced to give up only 22 of the names as hopeless "lost," but she is still trying to find the other 29. It is done by close cooperation with civilian relief secretaries of local chapters in towns throughout Louisiana, Mississippi and Alabama.

During November the American Red Cross in this way was instrumental in delivering a total of 960 long-delayed Liberty bonds to their owners, a report from National Red Cross headquarters in Washington announced Friday. Similar work has been and is being done in regard to war allotment checks, and, it is expected, will be done in locating insurance beneficiaries.

Forest Fires Have Been Reduced 81 Per Cent In California

SAN FRANCISCO, Cal., Dec. 22.—The forest service has been able in California through cooperative plans, complete organization and execution, and co-operation from timber owners and the public, to reduce in the past 12 years the annual fire destruction of valuable timber in the national forests in that state by 81 per cent or some 94 million feet.

That fires started by lightning were of common occurrence in the pine forests of Northern California as early as 1830 is a fact established, says the district forester at San Francisco, by the examination of old fire scars on still living trees. Naturally none of the trees examined had survived every one of the many fires recorded in the past two or three hundred years but several of them were not holocausts because the occurrence of more than 20 conflagrations each one separated by a number of years. One tree, the oldest examined in Plumas county, has very evidently survived 35 separate and distinct fires. Because it is evident that these fires were not holocausts because much of the area over which they burned still bears merchantable timber, some have questioned the need of extensive fire protection in California forests or of particular attention to the light ground fire. It is estimated, however, that ground fires in California actually destroy on the average, 1,182 feet of timber per acre or \$4.45 in value.

The Strong Withstand The Winter Cold Better Than The Weak.

Old people who are feeble and younger people who are weak, will be strengthened and enabled to go through the cold weather by taking GROVES' TASTY-LESC-CHILD TONIC, which is simply IRON and QUININE suspended in syrup. So pleasant even children like it. You can soon feel its strength-giving, invigorating effect. Price 60c. adv.

BETTER THAN WHISKEY FOR COLDS AND FLU

New Elixir, Called Aspirinal, Medicated With Latest Scientific Remedies, Used and Endorsed by European and American Army Surgeons to Cut Short a Cold and Prevent Complications.

Every Druggist in U. S. Instructed to Refund Price While You Wait at Counter If Relief Does Not Come Within Two Minutes.

Delightful Taste, Immediate Relief, Quick Warm-Up.

The sensation of the year in the drug trade is Aspirinal, the two-minute cold and cough reliever, authoritatively endorsed by the common people as ten times as quick and effective as whiskey, cough and croup, or any other cold and cough remedy they have ever tried. All drug stores are now supplied with the wonderful new elixir, so all you have to do to get rid of that cold is to step into the nearest drug store, hand the clerk half a dollar for a bottle of Aspirinal, and tell him to serve you two teaspoonsful with four teaspoonfuls of water in a glass. With your watch in your hand, take the drink at one swallow and call for your money back in two minutes if you cannot feel your cold fading away like a dream within the time limit. Invite you and expect you to try it. Everybody's doing it.

When your cold or cough is relieved, take the remainder of the bottle home to your wife and babies, for Aspirinal is by far the safest and most effective, easiest to take and the most agreeable cold and cough remedy for infants and children.

BUILDING IN ITALY NEEDS STIMULATION

WASHINGTON, Dec. 22.—Among other proposals to stimulate building in Italy, it has been suggested, says the trade commissioner at Rome, that under certain conditions new buildings should be exempted from taxation for a period of 15 years for dwellings for the better class, and 20 years in the case of tenements.

Previous to 1914 building companies and individuals in Rome constructed from 10,000 to 15,000 new dwellings, which however was barely sufficient to take care of the normal development of the city. During the war of course private building operations practically ceased and since the armistice little has been done. The great building industry has suspended new construction for the reason that the increased cost of materials and the higher wages which must be paid to workmen, do not permit the stockholders to derive a reasonable profit. Private builders, according to the trade commissioner, are in a serious position and are doing nothing. In all the principal Italian centers of population the shortage of housing accommodations is acute and strenuous efforts are being made to stimulate action in order that relief may be afforded.

NEW BRITISH AIRPLANE SERVICE TO BE PUT ON

LONDON, Dec. 22.—(By Reciprocal News Service.)—A supplementary air service will be established in the next few weeks between London and The Hague, connecting with express trains for Amsterdam and Rotterdam. A London, Amsterdam or Paris merchant will then be able to visit the other two capitals in a day and return home in time for dinner.

The airplanes will be of the Alceo make which have been in the London-Paris service since 1917. They are being used by the American chamber of commerce in London. Sixteen trips were blocked by weather, eight were interrupted by mechanical difficulties, but only three were not completed because of mechanical difficulties.

SCIENTIFIC SCHOOLS CLOSE TO AMERICANS

BOSTON, Mass., Dec. 22.—Scientific schools as essential factors in industry are growing more and more important. A striking instance of this is the new venture of selling her technical facilities to industry in contract form. The contracting corporation pays a yearly sum in the nature of a retainer fee for consultation privileges and the use of laboratory and laboratories. The institute's whole faculty body of technical experts is thus put at the disposal of each industrial concern which signs the contracts.

Such a connection with the technical school has an obvious value especially for the small industrial concern. Big industries do profit greatly by our scientific schools, but the smaller concerns must depend upon them even more closely, because of the cost of independent investigation. Every day scientific research becomes more necessary and more involved. This puts adequate scientific facilities further out of reach of the small industries and more completely in the hands of the large combinations. Only a concern with a volume of business large enough to make the tax very small per unit of production can maintain a well equipped laboratory and staff of scientists. Other industrial concerns should come this opportunity of consultation with the teaching staff and use of the laboratories of a great technical school, giving value for value received.

The Tech contract which puts her into a definite paying relationship with the particular industries which sign it, is only one phase of the "selling not begging campaign" for an \$8,000,000 endowment fund now being conducted by the institute. It is, however, a significant development in the growing partnership between industry and scientific schools.

Stomach Out of Fix?

Phone your grocer or druggist for a dozen bottles of this delicious digestant—a glass with meals gives delightful relief, or no charge for the first dozen used.

Shivar Ale

PURE DIGESTIVE AROMATICS WITH SHIVAR MINERAL WATER AND GINGER

Nothing like it for renovating old worn-out stomachs, converting food into rich blood and sound flesh.

Bottled and guaranteed by the celebrated Shivar Mineral Spring, Shelton, S. C. If your regular dealer cannot supply you telephone

COAST GUARD USEFUL IN GETTING SMUGGLERS

NEW YORK, Dec. 22.—The intimation that the coast guard service should remain a part of the treasury department for at least two years more to suppress any attempts to smuggle liquor into the United States, made the testimony of Gov. Frank O. Lowden of Illinois.

Gov. Lowden had expressed the view that the treasury department, if stripped of its spending bureau, would be the logical department in which should rest the budget-making power, rather than in a bureau of the president's office, which might lose touch with department heads and become curtailed in its functions.

Senator McCormick, who was acting as chairman of the committee, and who is the author of the principle anti-budget bill, said that he had left the subject in the treasury department in preparing his bill, at the instance of Secretary of the Treasury Carter Glass.

"During the next year or two he foresees duties for the coast guard in connection with the duties of the treasury," said Senator McCormick, "and for that reason asked especially that it be not taken out at this time. The subject was then dropped, but it was believed by many present that possible smuggling was the cause of the request."
